"The General Assembly declares 4 to 10 October World Space Week to celebrate each year at the international level the contributions of space science and technology to the betterment of the human condition"

*UN General Assembly resolution [A/RES/54/68](#)
6 December 1999*

World Space Week 2013: Exploring Mars, Discovering Earth

World Space Week is an annual event, observed during the week of 4-10 October.

By [Resolution 54/68](#) of 6 December 1999, the General Assembly proclaimed World Space Week, to celebrate the contributions of space science and technology to the betterment of the human condition.

The dates recall the launch, on 4 October 1957, of the first artificial satellite, Sputnik I, and the entry into force, on 10 October 1967, of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space including the Moon and Other Celestial Bodies.
